

Sulphur Mountain Eco-Village

Sulphur Mountain Rd, Ojai · ~93 acres · operating property

The Raise — \$3,000,000

Three million dollars secures the property and funds the first development wave of a working eco-village: eighteen interconnected projects on land that already lives and operates today.

At a Glance	
Goal	\$3,000,000 — acquisition + first development wave
Standing today	Main residence, barn, garage & storage structures
Program	18 projects — retreat village, farm systems, wellness, ceremony
Stage	Proposal — investment conversations open

The Vision

A retreat village and glamping creek · regenerative agriculture, food forests and a farmstead produce stand · wellness & spa facilities · ceremony and creative spaces (McQueen's garage becomes a gathering and music space) · mushroom cultivation, beekeeping, livestock & dairy · a tropical dome greenhouse — all anchored by the residences that already stand.

Why It Works

The property operates today — this is not bare-land speculation. Each of the eighteen projects carries its own budget, timeline and revenue picture on the interactive map: flip to Vision mode and tap any icon.

Explore this property on the interactive map: howard-property-dev.vercel.app — the **Today** toggle shows the property exactly as it is; the **Vision** toggle shows the proposed potential. Press the 3D button to fly the land in three dimensions.
